

## WHAT TO PACK

Alaska West is located in remote bush Alaska. You can purchase certain items in the village store, but the selection and availability is very limited. Tobacco products, batteries and fishing gear should be purchased in advanced of your trip. Use Anchorage as your last supply stop. For your convenience, fishing licenses can be purchased in camp or online. We recommend traveling with water-repellent luggage with soft sides. Always have your rain gear near or at the top of your bags for easy access.

Weather in Alaska is very unpredictable. No matter when you visit, be prepared for highs in the 70's and lows in the 40s. July is typically the warmest month, with cooler temperatures in June, August and September. Always be prepared for rain and wind. No Alaskan goes anywhere without good rain gear.

Camp clothing should be casual and comfortable. Remember to keep all important medications separate from your luggage. Because we are exposed to the elements even around camp, warmth and dryness should be considered in all clothing choices. We recommend layering your clothing for warmth and versatility.
